I provide this reference in regards to work done by Peter Grace of Titan Investigations.

Mr. Grace has properly and aggressively investigated claims on behalf of my clients. He has provided proper follow-up, and has given good suggestions as to further investigation that would assist the defence.

His work is cost-effective, and he is willing to work within a budget. In fact, he will work beyond a budget in order to provide the client with a useful investigation. I had a case within the last few months where he reached the maximum, but was getting good surveillance on a plaintiff. He continued over the course of a day to obtain that very helpful surveillance, at no additional cost to the insurer.

I recommend Mr. Grace and Titan Investigations to you. If you have any questions about him, please feel free to contact me.

Yours very truly,

KOSTYNIUK & GREENSIDE
